Oklahoma Christian Team '22

Our trip to Ezell was fantastic! Everything went as scheduled with very few hiccups. Kimmel, Lisa, and Sheri did a wonderful job of working our team in with the Faith In Practice (FIP) crew to serve 488 women over a four-day period.

FIP held classes everyday during our visit. These classes were training about 40 nurses and doctors to become certified in IVAA. During our four clinic days, the patients came in by the groves to be seen by one of seven set up in stations inside the recovery ward. Each patient was checked-in, and examined using the IVAA training.

We also had some of our team members on mobile clinics examining patients and identifying their ailments while still others worked in the dental wing at Ezell.

Joe Calderon spent his week in Chichi, substituting for some of our Caris employees so that they could be a part of the IVAA training being conducted at Ezell. Joe had a great week serving the needs of the people there.

We were kept quite busy for our four days of clinic and each day was rewarding in its own way. We managed to celebrate a birthday with cake and Chocó bananas, as well as spend part of a day and evening in Antigua. It was a wonderful opportunity to serve and be served.

Bode Teague
